

How-To Guide - Mobile Experience – Add Portal Shortcut to Home screen

This guide is intended to provide step-by-step instructions to add a Portal Shortcut to your mobile device. (iPhone and Android)

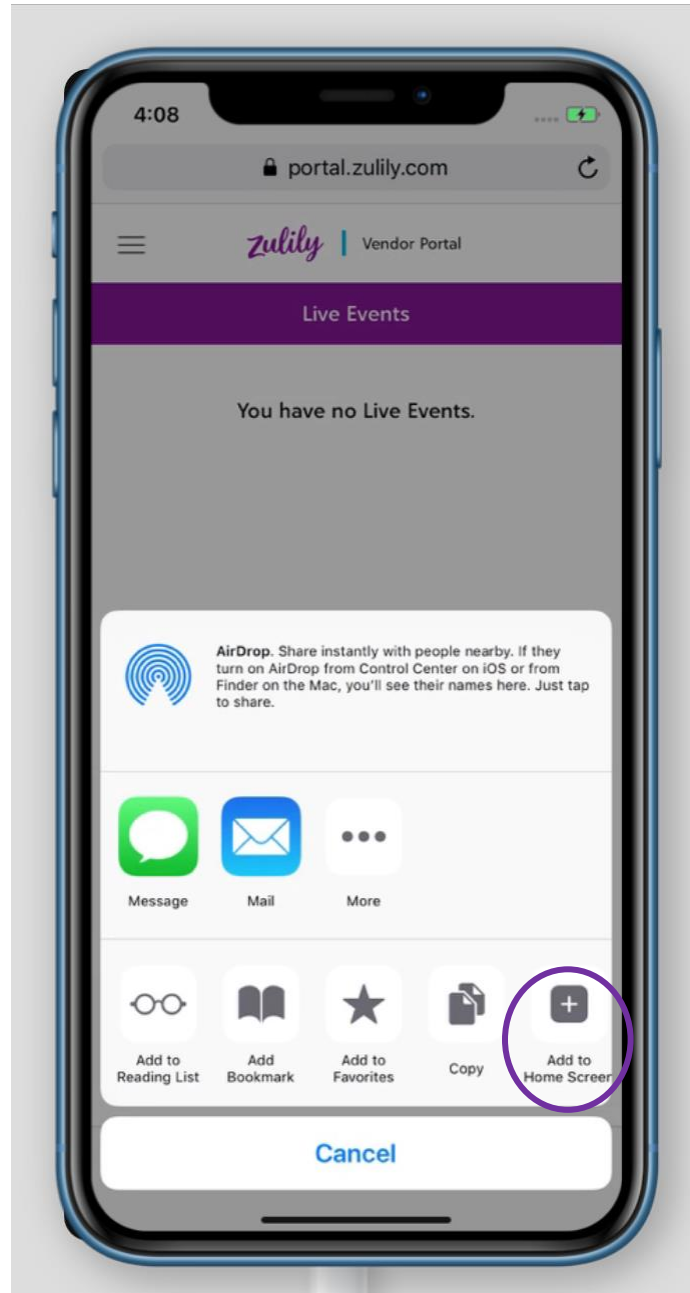

iPhone Steps

Step 1: After logging in, click on the item circled below.

Step 2: This will prompt a below screen to popup. Click on the “Add to Home Screen” option circled below.

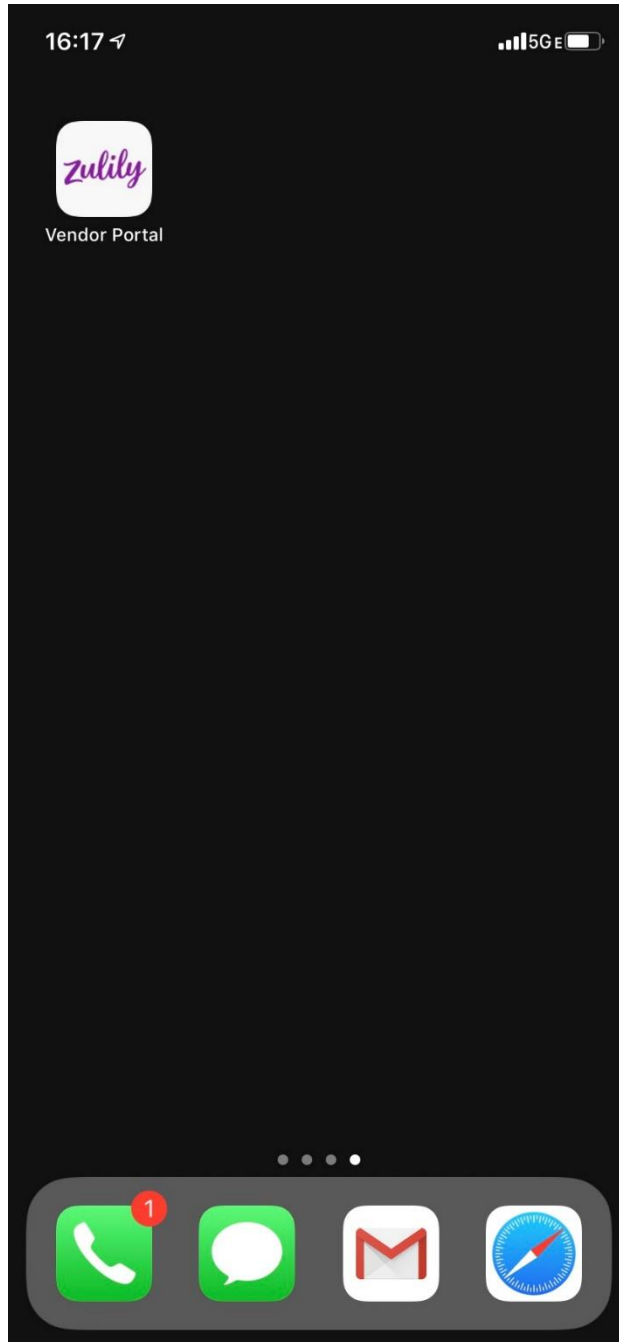

Step 3: The below screen will appear, and the last action will be to click on the “Add” option at the top right-hand corner of the screen.

Step 4: The below screen confirms you have successfully added the Mobile Portal Experience to your phone! After adding the shortcut to your Home Screen and logging in again, you should no longer need to reenter your login information when accessing the Zulily Portal.

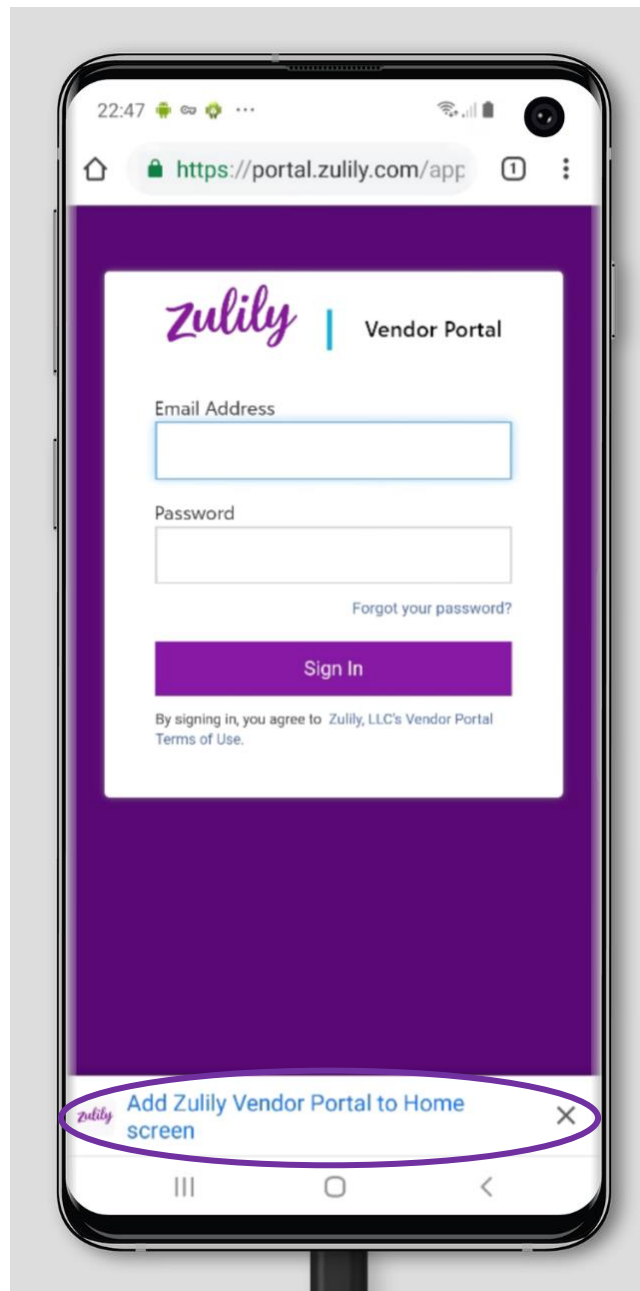

Android

Adding the Zulily Vendor Portal to your Home Screen can be done with two methods.

Method 1: If this is your first time accessing the Zulily Portal on your mobile device the below link will populate from the bottom of the screen. (Circled below)
Tapping this link will create a shortcut for you in one easy step.

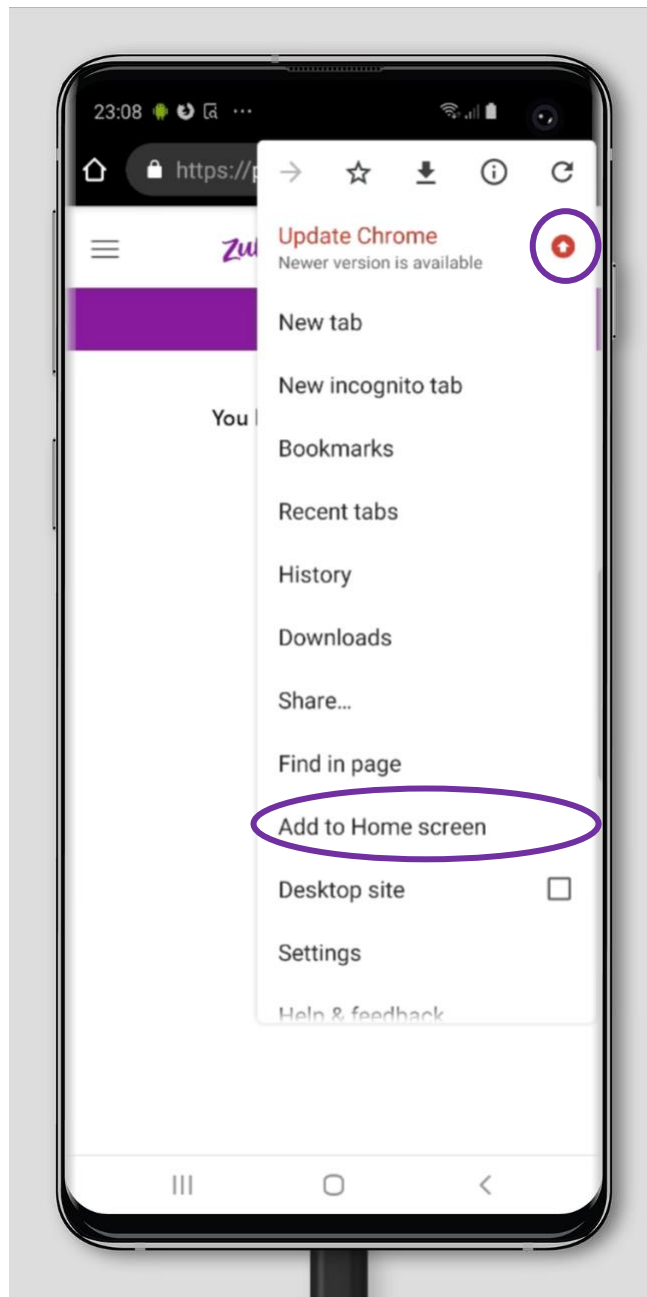

Method 2: If on an Android device and the above screen did not populate fear not, this can be added with the below method.

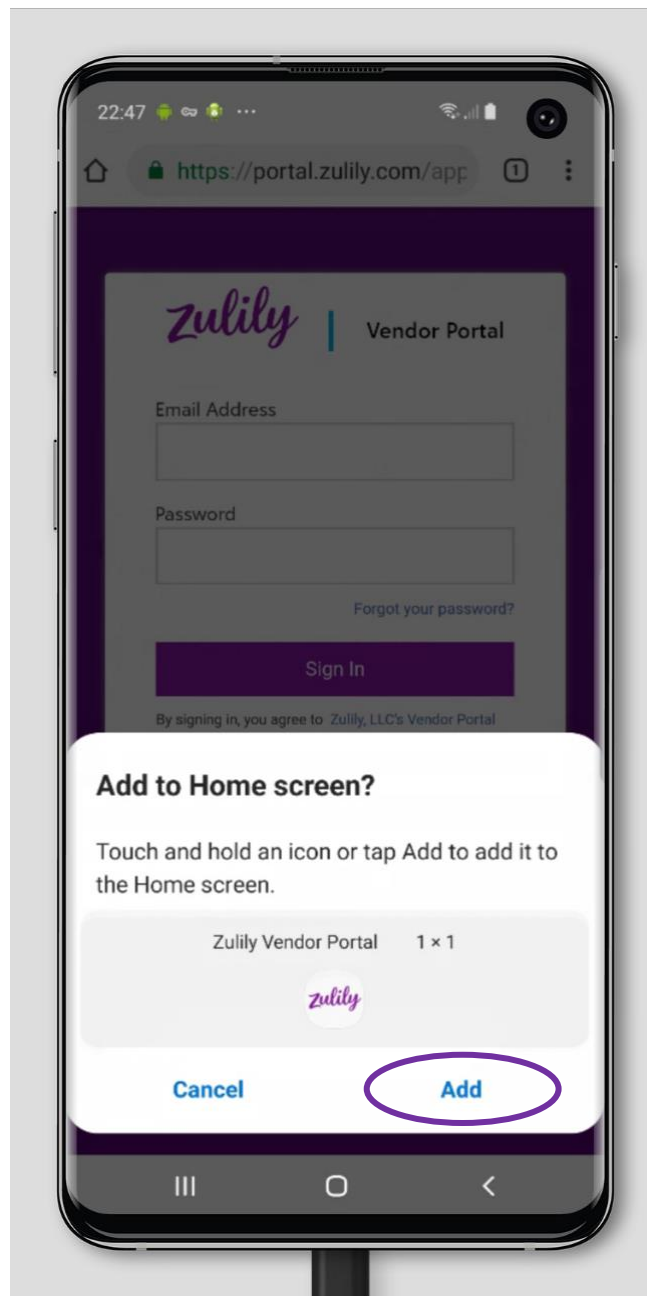

Step 1: After logging in, click on the arrow on the top right-hand corner (circled below) then the below screen will appear.

Step 2: Tap on “Add to Home Screen”. (Circled below)

Step 3: The last action will be to tap “Add” on the below.

Step 4: You are all done, and the Zulily Vendor Portal will now be accessible on your mobile device with one click. After adding the shortcut to your Home Screen and logging in again, you should no longer need to reenter your login information when accessing the Zulily Portal.
